

THEY ARE COMING TO GET ME, AGAIN!

by Rosita Libre de Marulanda

In Nazi Germany,
they called us useless eaters
they starved us
they exterminated us
the ovens were our destiny
those of us with alternate realities
those who marched to a different drum
disability as genocidal social marker
social Darwinism
public discourse that led to the acceptance
of murdering those deemed imperfect
by the self-defined superior race
intent on wiping out the feeble, the old,
the incurable, the dark skinned folks,
the women, the mentally retarded,
the mentally ill, the Jews . . .
This mayor is leading a hysterical public discourse
down the same path, again!

If you don't stand up when they come to get me
there may be nobody left when they come for you!

Everyone has to stand up NOW!
